Dear Sir,

## TEMPORARY CONSENTS FOR UNCONSENTED DISCHARGES

1. I refer to Mr Benefield's letter of 11 September which enclosed consent documentation relating to a number of unconsented discharges.
2. It has subsequently been brought to our attention that the documents issued in relation to discharges from sewage pumping stations do not adequately dispose of the applications submitted by Water Authorities in that the consents were issued in respect only of emergency discharges and not storm overflow discharges where these also occur.
3. I therefore attach revised consent documentation which supersedes that which was enclosed with Mr Benefield's letter. It should be signed within your office and despatched without delay to the Company. An additional copy is included for placing on the register in due course.
4. The schedules attached to the documentation which was sent under cover of Mr Benefield's letter remain unchanged. They should be associated by yourself and the Company with the revised consent issued in accordance with this letter.
5. A copy of this letter is being sent to the Chief Executive of the Company by facsimile to alert him to the issue of the revised documentation.

Yours faithfully

A S Pearce  
Superintending Inspector  
Water Pollution Inspectorate
