## Bowers Hall Combined Sewer Overflow Permit number T/39/45884/O

## Introductory note

### This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This variation is to reduce the pass forward flow volume to reflect the actual performance of the combined sewer overflow. A maximum screened flow figure is also being added to the permit.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
